

The screenshot shows the EBSCOhost search interface. At the top, there are tabs for 'Basic Search', 'Advanced Search', and 'Visual Search'. Below these is a 'Choose Databases' dropdown menu. The main search bar contains the query 'Workflow'. The search results are displayed in a table with columns for 'Title', 'Author', 'Source', and 'Date'. A message at the bottom of the results table states 'No results were found for your search query.' Below the search bar, there is a note: '(workflow\* or workflow? or work flow? or work load? or project? or process? or schedule? or scheduling or task? or utilization or operation? or performance) and (driver? or impetus or trigger?)'. The search results are limited to the 'Internet and Personal Computing Abstracts' database. To the right of the search results, a message says 'Folder is empty.' with an icon of a folder.

No results were found for your search query.

You may want to try your search again after following one or more of these tips:

- Check the spelling of your search terms. Correct any misspellings and re-run the search.
- To broaden your search, use the Boolean operator OR. For example, type: Siamese OR cats.

See [hints](#) for suggestions.

The screenshot shows the EBSCOhost search interface with various limiters and expanders. At the top, there are tabs for 'Advanced Search', 'Search History / Alerts', and 'Basic Search'. Below these are sections for 'Limit your results:' and 'Expand your search to:'. The 'Limit your results:' section includes a 'Date Published' field set to 'Yr: 1998 to Mar Yr: 2000', a 'Peer Reviewed' checkbox, and a 'Limiter | Expander' button. The 'Expand your search to:' section includes a 'Also search for related words' checkbox and an 'Automatically "And" search terms' checkbox, both with 'Limiter | Expander' buttons. There is also a 'Reset' button at the bottom right of the expanders section.
